

PEDAL ACTIVATED HAND SANITIZER DISPENSER

- *Made in the USA*
- *39" 22 lbs*
- *Some assembly required*
- *No bottle included*

FEATURES AND BENEFITS

Foot pedal activated dispenser allows for no contact with hands when dispensing sanitizer reducing exposure to harmful viruses and bacteria.

100% mechanical, no batteries required. This dispenser is low-maintenance for the operator.

Fits all pump bottles with volumes ranging from 8oz (250ml) to 32oz (1 liter) that are 4" or less in diameter. Allows for flexibility in product choice.

Powder coated aluminum with a steel base makes this product durable, attractive, and rust-proof.

The pedestal is backed by a limited one year manufacturer's warranty to give operators increased confidence in the quality of the dispenser.
