## VDC

VIRTUAL DINING CONCEPTS

VDC is your winning ticket when it comes to operating delivery-only restaurant brands.

### Company Description:

VDC is a turnkey solution for adding a virtual brand to your existing restaurant to generate extra profit. A Virtual brand is an incredibly useful and efficient way for restaurateurs to increase their bottom line with minimal impact to current operations. Virtual brands offer restaurant owners a separate concept that runs out of their kitchens and is available for delivery only via third party delivery platforms.

### Value:

Virtual restaurants are the future of the foodservice industry. Instead of developing brands from scratch, you can quickly begin taking orders for VDC's virtual brands with fully-developed training, branding, marketing, menu development, third party platform integration, technology, and PR.

### Advantage:

We're the leading developer of celebrity and premier virtual restaurant brands. VDC provides a unique opportunity to partner with some of the world's biggest celebrities who play an active role in marketing and speak to their millions of followers, driving revenue to your restaurant.

### Product offering:

Choose one or more of our celebrity concepts. The more brands you add, the more incremental profit you can receive a month.
