

# Plant Based Chili

## PRODUCT DESCRIPTION

Sysco Simply Plant Based Chili made with Simply Plant Based Protein (Pulled Oats) is vegan, fully prepared, and ready to use. This chili provides a plant-based solution for operators, allowing them to appeal to customers looking for meals with simple and wholesome ingredients. This chili mimics the look and feel of beef with the added benefit of lower fat and cholesterol.

## FEATURES & BENEFITS

Save time and labor as the chili is fully-cooked. Simply heat and serve.

Seasoned to provide the flavor of beef-based chili this new, simple ingredients option helps meet the increasing demand for versatile vegan plant-based products.

Save money and space as this product can cross-utilized in many applications across the menu.

Create a signature dish by adding additional ingredients to make this chili uniquely your own.

## CULINARY APPLICATIONS

**Vegan Chili Mac and Cheese:** The best of both worlds is achieved by adding our plant-based chili to our vegan mac and cheese. Topped with green onions and shredded plant-based cheddar and mozzarella.

**Vegan Chili Nachos:** Nachos layered with Plant Based Chili, black beans, scallions, guacamole, sour cream, vegan shredded cheese, and topped with jalapeños.
