sunday

The fastest way to pay in restaurants.

Value Proposition:

- Waiters save 3 trips back and forth to the POS (adding up to about 10-15 min in total per table) giving them time to focus on upselling drinks/desserts and bringing out food/drinks faster.
- Customers get that time back too and they aren't shy about ordering dessert or drinks which leads to 12% higher check sizes.
- A happy customer and higher ticket size means more tips for waiters. Waitstaff who use **Sunday** see tips increase up to 20%.

Advantage:

Bill Splitting: Sunday offers more ways to split the bill than any other payment solution out there. Save yourself and your customers time!

Beautiful QR Codes: We'll work with your restaurant to build beautiful, durable QR codes that match the aesthetic you've cultivated.

Product Offering:

Sunday is an app that is integrated with your POS which means your tip out and reporting processes won't change. To keep things simple, we only charge a flat processing fee for transactions that go through **Sunday**. Since the QR code lives on the table, we see adoption rates around 50% at most restaurants.
